CLINICAL NOTES:

Referring Doctor:

Signed: Provider No:

ALL CORRESPONDENCE TO BE SENT TO MIRANDA ROOMS

Your doctor has recommended that you use Cardiology Associates.
You may choose another provider but please discuss this with your doctor.

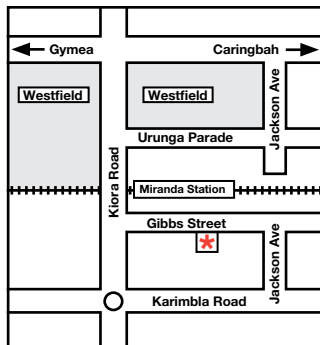

PREPARATION:

Women: For all of the following tests, please wear separate clothing i.e. skirt & top, slacks & top or shorts & top, **not a dress.**

- 1. Stress Test:** Bring or wear loose clothing and shoes appropriate for exercising in (no high heels or bare feet). Take your usual medication unless advised otherwise by your doctor. Also please bring a list of your medications and a hand towel.
- 2. Echocardiography:** No special preparation required.
- 3. Ambulatory Holter Monitor:** You cannot have a bath or shower whilst wearing the monitor so it would be better for you to have one prior to having the monitor fitted.
- 4. Ambulatory 24 hour blood pressure monitor:** You cannot have a bath or shower whilst wearing the monitor so it would be better for you to have one prior to having the monitor fitted. The garment you are wearing should have a loose fitting sleeve to allow the cuff on your arm to inflate. Do not wear a tight restricting sleeved garment. Women are advised that it is much easier for them if they wear a loose fitting bra to sleep in. You cannot remove your bra once the monitor is fitted.
- 5. ECG:** No special preparation required.
